

Help! Corrupt Support File

Ever had all your menus disappear? Or made a mistake creating a new linetype style?

Stop! Don't do that repair install/reinstall just yet!

Did you know that there is a "protected" copy of all the files that are incorporated into that messy Windows-compliant document structure?

Check out the "C:\Program Files\AutoCAD Civil 3D 2009\UserDataCache" directory. It may just save you a lot of time, effort, and headache! ❖

Discussion/Demonstration Topics & Ideas

I wanted to present some ideas that have come up as possible topics for future discussion/demonstrations for our monthly meetings. Please let me know, either by email or at the next meeting, which (if any) of these issues is something you have an interest in:

- ❖ Julie Simmons, of Adverus, Inc would like to demo their software... more info at www.adverus.com
- ❖ Jim Coats (or another COR GIS specialist) to demo the various data available from the city website (and others)
- ❖ I could try to schedule a LUNCHTIME walkthrough tour of either Cypress Bridge or Stillwater Business Park

Also, I think it would be really cool to look at a different 3d-party software package each month. We could start with ones that any of you might already be using, or ones that you have considered but not yet tried! Some ideas include:

- ❖ AutoTURN
- ❖ VisionREZ
- ❖ CADApps
- ❖ ARCHIdigm

Let me know if you have any others. ❖

Wednesday, Aug. 13, 2008

5:30 PM at Delta Engineering Systems,
1438 Hartnell Avenue, Redding

Agenda

OFFICER REPORTS

OLD BUSINESS:

- NCAUG domain w/ Email
- Review of Group By-laws

QUESTIONS & ANSWERS

NEW BUSINESS:

- Demonstration: **Let's try this one again – never got to it last month! Thanks for all the questions and in depth discussions!** Civil 3D Data Shortcuts in a real project application – Stillwater Business Park. This project uses data shortcut references, external references, and sheet sets!

RAFFLE!

**Next month's meeting:
Wednesday, Sept. 10, 2008**
