

Missing Layout Tabs

Ever wondered what happened to the layout tabs in the newer versions of AutoCAD-based programs?

The layout tabs have been hidden to gain drawing screen space! They are still available and it is very easy to turn them on again... just right-click on the model toggle at the bottom of the screen in the status bar. The shortcut menu choice is "Display Layout and Model Tabs". Of course, the main reason that you might need these tabs on is to have access to the Shortcut menu choices of New Layout, Rename, Move or Copy, Plot, etc. ❖

*Beverages and cookies provided by Tim Corey,
the group provides PIZZA each month!*

Membership Drive

*How long has it been since you came to a NCAUG meeting?
Have you paid your membership dues lately?*

We send this newsletter to about 75 people. However, only about 10 people, on average, show up to any given meeting!

This is not just a core AutoCAD only group! The people in this group use AutoCAD, AutoCAD Architecture, AutoCAD Civil 3D, Inventor, SolidWorks (oops), and Microstation (major oops).

This meeting is your resource to the local AutoCAD community to meet your peers that use the same software you use every day to complete your projects. These people are your greatest resource for troubleshooting software issues, solving process issues, and much more!

Come and get the answers to your questions. Come help answer other peoples questions. The combined years of experience available to the collective group is the greatest asset we have and your participation is valuable! Bring a friend! ❖

Wednesday, Sept. 10, 2008

5:30 PM at Delta Engineering Systems,
1438 Hartnell Avenue, Redding

Proposed Agenda

OFFICER REPORTS

OLD BUSINESS:

- Bylaws
- Cypress Fieldtrip

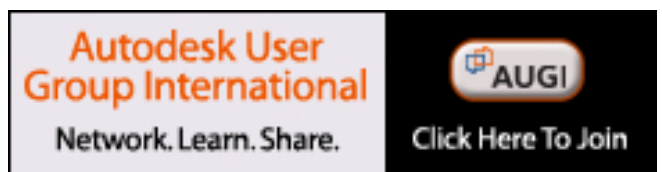

NEW BUSINESS:

- Membership
- Raffle options

QUESTIONS & ANSWERS

DEMONSTRATION:

- AutoCAD Architecture (ACA) 2009: Cool new changes to project functionality and wall object interactions.

**Next month's meeting:
Wednesday, Oct. 8, 2008**
