

Sheet Set DST file & 2009

Have you discovered the new easy way to open your sheet sets in 2009 AutoCAD-based programs?

In AutoCAD 2009, the DST file that is the actual sheet set is now listed in the file section at the bottom of the File pulldown menu, as well as in the Recent Documents section of the Menu Browser. Click on it and it loads into the Sheet Set Manager.

Also, in the Recent Documents, you can “pin” a listing so it will not fall off the list. Very useful functionality, especially for these dst files. ❖

Cypress Bridge Tour

Have you driven across the Cypress Bridge and wondered, “What’s the rest of the story?”

We have arranged for a tour of the bridge on Wednesday, November 19th at 1:00 pm. The tour is approximately one hour. We will meet at City Hall in the lobby and move to the Engineering break room for an orientation. Hard hats and orange vests are provided, although you are welcome to bring your own.

This tour will involve going out on the work tressels. By the time of the tour, they should be into the demolition of the existing north bridge.

Unfortunately, due to safety issues, there is only room for about twelve people. If interested, please contact Larry Bettes, at 245-7127. ❖

Wednesday, Oct. 8, 2008

5:30 PM at Delta Engineering Systems,
1438 Hartnell Avenue, Redding

Proposed Agenda

OFFICER REPORTS

OLD BUSINESS:

- Cypress Bridge Fieldtrip
- Membership / Bylaws

NEW BUSINESS:

- Regular Board Meetings
- Autodesk University Pass
