

Program Endangered!

Engineering programs may be suspended!

Just like everyone else in this struggling economy, Shasta College needs to make some cuts. No decisions have been made yet; however, there are some suggestions on a list of considerations. Suspending the Engineering programs is one of those suggestions!

If you have any desire to update your skills using the latest versions of AutoCAD, AutoCAD Architecture, or AutoCAD Civil 3D; you need to provide your input to the college against this decision. Vocational programs should not be cut, but maybe administrator's salaries should! ❖

HOT AutoCAD Tip

From CADalyst, Tips & Tricks Weekly

Use TXT2MTXT command to convert one or more single-line text objects into a single multiline text object. This is an Express Tools command.
