

Happy Autodesk New Year!

AutoCAD 2010 based software has arrived!

Tim Corey will demonstrate and discuss the new features of AutoCAD 2010, including parametric and dimensional constraints, free-form design, PDF underlay, new dynamic block features, and the improved Ribbon!

Parametric Drawing

Dramatically slash your design revision time with parametric drawing. By defining persistent relationships between objects, parallel lines remain parallel and concentric circles remain centered—all automatically.

PDF Integration

Sharing and reusing designs has never been easier, thanks to a long list of upgrades made to streamline communication. Publish PDF files directly from AutoCAD drawings and attach and snap to PDF files as underlays.

Free-Form Design

Design ideas in almost any form you can imagine. Simply push/pull faces, edges, and vertices to model complex shapes, add smooth surfaces, and much more. ❖

**Next month's meeting:
Wednesday, May 13, 2009**

Wednesday, Apr. 8, 2009

5:30 PM at Delta Engineering Systems,
1438 Hartnell Avenue, Redding

Proposed Agenda

OFFICER REPORTS

OLD BUSINESS:

- Website

NEW BUSINESS:

- Annual DES New Feature Demo & NCAUG Membership Drive?
- Newsletter

QUESTIONS & ANSWERS

DEMONSTRATION:

- **AutoCAD 2010**
Presented by Tim Corey,
Delta Engineering Systems

*Beverages and cookies provided by Tim Corey,
the group provides PIZZA each month!*

HOT AutoCAD Tip

From Paula Jones, CADalyst Tips & Tricks Weekly

There is an easy way to correct text case without deleting everything and starting over. Highlight the text in your editor, right click the highlighted portion, and select Change Case. This works for MTEXT and DTEXT, and it saves a lot of time.
