

FREE Training!

**Tuesday, Dec. 8, 9:30-11:30 am;
City Hall Community Room**

Are you aware that as of June 2009, the City of Redding GIS Division is no longer providing dwg format? Do you know that this is not a problem because you can use the SHP file format directly! ❖LB

“Data Usage and Sources for Map 3D”

California CAD Solutions invites you to come join us for the first of these informative events. This will be the first in a series of informational seminars on getting the most out of Autodesk Map 3D. In this session, we will be discussing sources of GIS data and how to bring them into Autodesk Map 3D via both FDO and direct importation. We'll talk about common mistakes that cause the loss of data and other data integrity issues.

Coffee, juice and cinnamon rolls will be provided.

This free training gives you the necessary skills to use all the COR GIS data available on the City website. ❖LB

HOT AutoCAD Tip

Here is a tip I picked up on at Autodesk University last week.

Have you ever been frustrated not being able to remember a specific command name or system variable?

Did you know that you can type the first few letters of a command name on the command line and then use the <Tab> key to cycle to the correct full command name? ❖LB

Wednesday, Dec. 9, 2009

Tortilla Flats, 5:00 PM

2800 Park Marina Drive, Redding

Second Annual NCAUG Christmas Party

***Join us at Tortilla Flats for a little
holiday good cheer!***

- Room reserved from 5:00-7:30.
- We had a great time last year.
- No host bar!

See you all there!

**Next regular meeting:
Wednesday, Jan. 13, 2010**

Friendly Reminder!

Membership dues are due in January

Please remember that there are fees involved in the upkeep of your user's group. Even if you are not able to make it to the meetings, your dues help this group maintain the resources you need. ❖LB
